Charger

Main Specification

Specification		Unit	values
Rated voltage		V	3.7
Rated capacity		mAh	4400
Light output		lm	170
Continuous runtime	Lighting	h	⩾10
	Sign	h	＞30
Recharge time		h	＜12
Service life of battery		Times	≈1000
Dimension	Diameter	mm	ϕ66
	Length		171
Net weight		g	265

Note: When the light is on, press any switch in the three colors of the lamp head for 2 seconds to illuminate the lamp, and then press it to turn off.
