ZW4303 Double directional light

TORMIN

LED

IP 65

ZW4303 ZW4303A

Characteristics

■ Use magnetic force to adsorb on the metal surface or buckle on the wall for fixed use, easy to operate and easy to carry.

■ The light source adopts the international brand LED light source, which can send out a long light or stroboscopic warning, signal or display direction in two opposite directions at the same time.

■ Good airtightness, waterproof performance which can work in harsh environments. With bulletproof rubber material shell can withstand collision and impact.

■ The high-energy non-memory lithium battery has large capacity and low self-discharge rate. After a fully charge, the continuous working time is not less than 12 hours, and the continuous working time of strobe is not less than 30 hours.

■ Equipped with a low-voltage prompt function, which can remind to charge in time.

Application

Electricity, railway, shipping and other transportation workers make warning signs and directions for signal communication.

Main Specification

Item	Unit	ZW4303	ZW4303A
Rated voltage	V	3.7	3.7
Rated capacity	Ah	1.7	1.7
Working current	mA	120	120
Visible distance	m	1500	1500
Continuous discharge time	h	⩾12	⩾12
Strobe continuous discharge time	h	⩾30	⩾30
Charging time	h	6	6
Life time of light source	h	⩾100,000	⩾100,000
Battery life	cycle	≈1000	≈1000
Dimension	mm	100×140	100×280
Net weight	g	410	530
